## Idol Quest VR Download Utorrent

Download >>> <http://bit.ly/2SJD8FQ>

### About This Game

Idol Quest VR is a single-player exploration-adventure shooter with a simple premise: Discover the lost idol. To do so you will need to solve puzzles and avoid or defend yourself against dangerous wildlife and other perils in large, open environments.

Both natural (arm-swing plus head-bob) and artificial locomotion play styles are supported, and you are free to run, swim, and climb as you please. You are supplied with a knife, a backpack (for storing various pickupables), dual pistols, dual uzis (on some levels), 92 rounds of pistol ammo, a pump-action shotgun, and 18 rounds of shotgun ammo; all weapons handling is detailed and takes full advantage of vr motion controllers.

Each level has its secrets, including four randomly placed crystals. Will you discover them all? Will you survive to find the idol?

*Note for Oculus Rift users: Ensure you launch the game from your Steam Library and choose the second option, "Launch Oculus Rift in Oculus VR Mode". Alternatively, launch idolquestvr\_oculusrift.exe, which for most people will be located at the following path: Steam\steamapps\common\Idol Quest VR\oculusrift\idolquestvr\_oculusrift.exe*

---

meh, at least the price almost correctly reflects the quality. but don't waste it... buy a candy bar or something instead. A total Mess, very bad controls, even the menus are almost impossible to use.  
Don't worth your time even if it was free

Edit 24/06/2018:

Still broken, can't move, can't holster pistols, so I have to quit after 2 min.

But now it's free, yso you can try it yourself .... This is good Game. No \u2665\u2665\u2665\u2665\u2665\u2665t. The Grafik is not the best. The sound is not perfect. But u get a real Game for 3 Euro.
